An Introduction to Your New Belkin USB ClassicKeyboard

This keyboard is perfect for users who desire high performance features at an economical price. It features the highest quality and design, including high quality data markings that ensure the durability of all letters and symbols. Bothersome key clicking noise is eliminated by high quality membrane rubber employing our QuietType™ technology. Of course, all Belkin keyboards are compatible with your Microsoft® Windows® operating systems.

The ClassicKeyboard still has the familiar layout that you are used to. Using a QuietType™ membrane with soft tactile keys will ensure you ease of use and a comfortable feel. With a 20 million keystroke operating life and a larger sized "Enter" key, you can expect reliable and convenient performance for years to come.
